

why do I need highspeed wireless internet?

Delivering wireless broadband infrastructure since 1996, Storm Internet has connected more than 10,000 residential and corporate clients spanning more than 50 municipalities in Eastern Ontario.

If you are one of the following, you should consider getting **Storm Highspeed Wireless** service at your location:

- living in rural Ontario with limited connectivity
- operating a rural business with Internet needs
- DSL, cable and/or fiber is not available in your area
- you are hosting your own Internet servers
- looking for affordable options for your network
- using demanding Internet applications for business
- require 2-way highspeed data transfer
- need unique point-to-point campus solutions

The **Storm Highspeed Wireless** service may require a clear, uninterrupted, "line-of-sight" from your premises to one of our many towers in our large coverage network.

To check if Storm Internet is available at your location, you can ask for a **FREE** site survey. One of our technicians will be happy to visit your location and check for a Storm signal.

Our prices are "hassle free" and carry the option of **NO LONG TERM CONTRACTS** - a demonstration of our ongoing commitment to earn your business each day.
